

# Apple training: User Experience

**Session length: 1.5 - 2 hours**

## Curriculum

---

### Indicative Content

- **Getting around your devices** – tips and tricks on navigation, finding stuff, organising stuff.
- **Storage management** – on devices and in the Cloud.
- **Managing updates** – when and how to update.
- **Filesharing** – Safely share photos, apps and music with family members.
- **File and photo management** – organisation, backup, sync and sharing.
- **Getting the most out of iCloud** – make your devices work together to improve productivity, backing up devices, security, Continuity, Hand-off.
- **Accessibility** – making your life easier with built in features.

### Prerequisites

#### Software:

- Mac OS X 10.11 (El Capitan) or later
- iOS 9.0 or later

#### Hardware:

You will need to bring your own Apple devices to the session. Some of the features we will look at are not supported on older models but you should be fine if you're using one of the following:

- MacBook Air (mid 2012 and later)
- MacBook Pro (mid 2012 and later)
- MacBook (Retina, 12", early 2015)
- iMac (late 2012 and later)
- Mac mini (late 2012 and later)
- Mac Pro (late 2013)

(You can date your Mac by clicking the Apple icon 'About This Mac' and then 'More Info')

- iPhone 5 or later
- iPad Pro
- iPad (4th generation)
- iPad Air or later
- iPad mini or later
- iPod touch (5th generation or later)
