

THE e7 PROGRAMME

JIGSAW²⁴

e7 1:1

Your final step in becoming a technology leader

Kris
Head of education

From as little as £6.85 per student per month, e7 1:1 gives you the opportunity to provide students with iPad, cases and warranties through a dedicated parental contribution portal, promoting your school as a forward thinking institution to the community and to other schools. Whether you've taken part in our e7 pilot or have successfully trialed the device in your own time, we can help you roll it out on a 1:1 basis to all students.

The most efficient way to take iPad full scale, you get full support and guidance from our dedicated team, while benefiting from a fully managed setup. You can even make your iPad experience completely cost neutral, either through introducing a parental contribution scheme or through long term benefits such as print costs.

e7 1:1 at a glance

What is it? A fully managed solution for schools wanting to roll out iPad on a 1:1 basis to students and staff.

Who's it for? All schools that want to provide iPad to every student. If you've already had a positive experience with iPad and have an SLT dedicated to 1:1, we'd love to work with you.

How much? You can roll out iPad on a 1:1 basis on almost any budget, as long as you go for the right financial scheme (but we'll provide plenty of advice and support!). It can even be completely cost neutral.

Why should my school take part?

e7 1:1 is about finding a solution that works for your school. Whether you want to lease the devices from **as little as £6.85** per student per month, or need to ensure the entire process stays cost neutral, e7 1:1 is one of the leading education solutions.

One of the big benefits of e7 1:1 is that we can manage the entire deployment process for you; you'll have a dedicated, free of charge consultant to help project manage the rollout.

You'll also have access to: a free school-branded portal that parents can log into to make secure payments to the iPad scheme; a managed claims handling service; automated collection of parental contributions; support at parent engagement evenings; free curriculum training with our in-house Apple Professional Development trainers; technical support and much more.

How does e7 1:1 work?

Our team will work with you to design the perfect 1:1 solution for your school. After consulting with you, we'll put together a proposal that factors in:

- **The type of device** (eg iPad Air or iPad mini with Retina display) and cases needed. This will come down to your school's preference and the tasks students will use the devices for.
- **The length of the lease**, ie two or three years, and the residual value at the end of the term. Will your school want to keep the devices at the end of the lease or refresh them for the latest model?
- **Insurance options** for accidental damage and theft of the devices. Is misappropriation and GAP needed, and who will be the payment manager for direct debits?
- **Parental contributions**. We've already worked with plenty of schools who have used parental contributions to fund their 1:1 schemes. We'll put together calculations to help you understand which of the different options is best for you, your students and their parents; part contribution, full contribution or repayments.
- **Additional service** recommendations to help make 1:1 successful, including:
 - iPad configuration.
 - Web filtering.
 - Software support.
 - Consultation on workflow and file management.
 - Essential teacher training.
 - Technical consultation.
 - Technical handover training.
 - Classroom setup design.
 - Supply and installation of kit.
 - Flexible and extended warranties.
 - Help on launch day.
 - Network and infrastructure review.
 - Project management of your rollout.
 - Parental or employee contribution schemes and digital portals.

What happens at the end of the iPad lease?

If you opt for a hardware lease instead of buying outright, at the end of the scheme you'll either have the chance to purchase the hardware at a reduced price, or you'll be able to refresh all of your devices so that students have access to the latest model.

Or if you have any questions, please get in touch with the team on **03332 409 310** or email e7@Jigsaw24.com.

e7: Three steps to an enlightened classroom.

e7 is the UK's leading iPad deployment scheme for schools. Focused on the learning benefits of Apple's tablet, we work with teachers up and down the country to understand how iPad can be successfully rolled out to students on a 1:1 basis.

We know that one size does not fit all, so have designed each programme to meet your school's exact needs:

- **e7 pilot** – The free of charge 1:1 iPad trial designed to give you a taster of using iPad on a larger scale.
- **e7 for teachers** – A leading iPad training programme that helps teachers understand how iPad can assist in teaching and learning.
- **e7 1:1** – A fully managed solution for schools wanting to roll out iPad on a 1:1 basis to students and staff.
