InsanelyGreat@Jigsaw24.com

**Jigsaw24 are looking for capable and dynamic apprentices to join our teams! We want energy and enthusiasm, so if you fit the bill, we want to hear from you!**

## About us and our culture

Jigsaw24 is a magical IT company, time-tested in delivering creative technology solutions and services to more than 25,000 enlightened customers. We work closely with large businesses, creative professionals, media companies, education institutions and prosumers up and down the UK, always providing top-quality, reliable services. With offices in Nottingham, Manchester and London, Jigsaw24 now report annual sales of £85m and a strong balance sheet of £7m net assets. Plus, we're pretty cool. Why? Well, we're all about opportunities at Jigsaw24, helping every single member of our team adapt, develop and build their skillset. We empower each other to strive for the best while taking a fun, creative approach to IT. Most of all, we're proud of individuality and identity.

## What is an apprenticeship?

A level 2 apprenticeship programme lasts for 12 months and combines practical training on the job with study. That means you'll be learning and earning! You'll be working hand-in-hand (not literally) with our experienced team and will gain job specific skills that you won't find anywhere else. Most importantly, you'll be working your way towards a nationally recognised qualification.

## What will you be doing?

During your time with us, your work will be concentrated within one department of the company. This is your chance to experience work in the IT, marketing, purchasing, accountancy, warehouse or customer service departments, allowing you to find your niche and develop within it.

## What do we need?

We need passionate, energetic, dedicated apprentices with a 'can do' attitude. You have to want to learn, and be excited at the prospect of developing your skills. You will experience working in a strong team where willingness for hard work is paramount and commitment to your role is a must.

## So long story short...

- Grades A-C in English and maths.
- Great communication skills and a natural ability to engage with our customers.
- Strong numeracy and literacy skills and an attention to detail.
- A sense of dedication and commitment.
- A passion for delivering exceptional customer service.
